

# #1 Treatment for Localized Prostate Cancer

Uzay Yasar, MD  
Urologist Specializing in Robotic Prostate Cancer Surgery

Dr. Uzay Yasar is the North Bay's specialist in robotic prostate surgery. The da Vinci robotic surgery has been used in tens of thousands of surgeries worldwide. The da Vinci Surgical System® seamlessly replicates the movement of the surgeon's hands with the tips of micro-instruments, allowing minimally-invasive laparoscopic surgery to be performed through a dime-sized incision.

With Urology offices in Novato and Santa Rosa, Dr. Yasar is the North Bay's expert robotic prostate cancer surgeon. The da Vinci Robotic Prostatectomy is the #1 choice for treatment of localized prostate cancer. The procedure incorporates a state-of-the-art surgical system that helps the surgeon navigate vital anatomical structures clearly and operate with remarkable precision. This new minimally-invasive surgery has several important benefits.

- State-of-the-art prostate cancer treatment with the ability to preserve erections and continence
- Shorter hospital stay (often just overnight) and quicker recovery time
- Less pain and scarring
- Quicker return to normal activities

For more information on robotic prostate surgery or to make an appointment with Dr. Yasar, call (707) 521-8900.
